REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art of record when taken as a whole does not teach or render obvious the combination of Claim 9 including a plurality of filaments wherein each filament occupies one slot of a plurality of slots of a drum and each filament being wrapped around the drum several times.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Debaes et al. and Westphal are cited for disclosing similar filament braking devices.
